**titled:  
Jehadi Media stronger today than  
yesterday**

**Jumada AlAkhera 1434H  
May 2013**

**In the name of Allah the most Gracious the most Merciful**

Grace be to Allah, Lord of the universe, the eventual successors are those who fear Allah, and no aggression but against the oppressors and peace and prayers be upon the most noble of messengers and his family and companions and upon those who follow the truth path till the day of judgement, and following:

Allah swt said: **“O you who believe! Avoid much suspicions, indeed some suspicions are sins. And spy not, neither backbite one another. Would one of you like to eat the flesh of his dead brother? You would hate it (so hate backbiting). And fear Allah. Verily, Allah is the One Who accepts repentance, Most Merciful” (Alhujrat, 12)**, and it's but common sense; that not a single matter can be stable with two heads running it, and no contract is regulated as long as minors are fighting against majors to regulate and fix it, and that one opinion with pitfalls and correct judgements is better than a mistake, better than different opinions even if some of the differing opinions bear correct ways, this is because the former has nothing to stop it bearing fruits as hearts are hung to it together, while the latter has differences and hearts are not set upon it, the first leads the way, and the second is busy by itself.

Lately there appeared [he who] uses the media to break the unity of Muslims and light fire of sedition amongst Mujahideen, without returning to what Allah has ordered in such cases, as Allah said: **“When there comes to them some matter touching (public) safety or fear, they make it known (among the people), if only they had referred it to the Messenger or to those charged with authority among them, the proper investigators would have understood it from them (directly). Had it not been for the Grace and Mercy of Allah upon you, you would have followed Shaitan (Satan), save a few of you” (alnesa, 83)** noted scholar AlSaadi said in interpreting it:

“This is education from Allah to His worshippers about their indecent deed, and that they resort if an important matter happens regarding security of happiness of the believers or fear which may result in catastrophe, to be steadfast, and observe and not spread that news, but rather leave the judgement to Allah, the prophet and those who are in charge, people of opinion, knowledge, advice and brains and steady heads, those who know matters and what is good and what is against, if those find it better to propagate the news for a good reason and activity for the believers and protection against the enemies, they would do it, and if they don't see good coming or there's a good outcome but there's also bad consequence, they would not broadcast it, and that's why He said: **“the proper investigators would have understood it from them”** which means they would extract it with their methods and good opinions and guided knowledge.

That bears proof of a literary rule which applies if there's a research in some matter, then those who are qualified should be tackling the matter and the right people should be assigned the issues and nobody advances against them, this is more like righteousness, and avoids mistakes.

In it too is a prevention of hurrying to spread matters when heard, and an order to look and observe before talking, is it a good thing to do? or bad and should be avoided) end quote.

As a result of that commitment to Godly orders, Jihadi media - by Allah's grace and help - managed to overcome a lot of sedition, which human and non human devils tried to blow up, and those events passed like memories, and Jihadi media only increased in strength and solidity.

But this time there came from amongst us he who refuses to commit to those moralities and goes against the recommendations of people of knowledge amongst the Mujahideen and the people in charge who have experiences and expertise, and there were many attempts to make those who did those deeds stick to the moralities which were recommended by people in charge many times and they were warned not to talk about things they didn't know fully, and of which they are ignorant, but unfortunately they insisted on that route liking their own opinion without considering the instructions from the top heirarchy let alone sticking to the morality of Quran and Islam.

They went on attacking the Islamic state of Iraq, and its leaders basing their judgement on thoughts and imaginations and heresies without considering Quran or the rule of observance which Allah said: **"O you who believe! If a rebellious evil person comes to you with a news, verify it, lest you harm people in ignorance, and afterwards you become regretful to what you have done" (alHuhjraat, 6).**

Still there are [Muslims] in the nation of Islam who takes up news and rumours and said it without considering and thinks it's a small matter which for Allah it is a great thing, and yet there are those who can stop those tongues with the right news, and shiny proof.

Therefore, and as part of the responsibility of your brethren in Fajr Media centre which was assigned to them by the leadership and was put in their safe hands to keep the route of Jihadi media, and not to let anyone whoever that is to change the working from its course or to cut its queues, and anyone's effort in giving support to Jihad and Mujahideen doesn't allow him to break the lines or put differences between the hearts, as the good of the Jihadi Media and it's queues and sticking to its principles and its redlines is above the personal opinions and individual gains, and knowing that the door of the media is open to whoever comes to give support or fight it, but we can not allow our media bases to be used to fight Mujahideen and their leaders.

**Therefore, we warn all Jihad networks and Media organisations from dealing with whoever maligned the Mujahideen in general, and the State of Islam in particular, and we warn our brothers the members of those networks against being overcome by those nicknames and to stick to the orders and guidance of people of responsibility who are allowed to observe and judge any particular issue.**

**We reassure what we reassured many times in various ways - to cut the way upon what may come off the Jin Satans telling their followers - that every member in all Jihad networks represent none but themselves, and that lessons are only taken**

from media organisations in the war fronts by way of Jihad leaders and Mujahideen scholars.

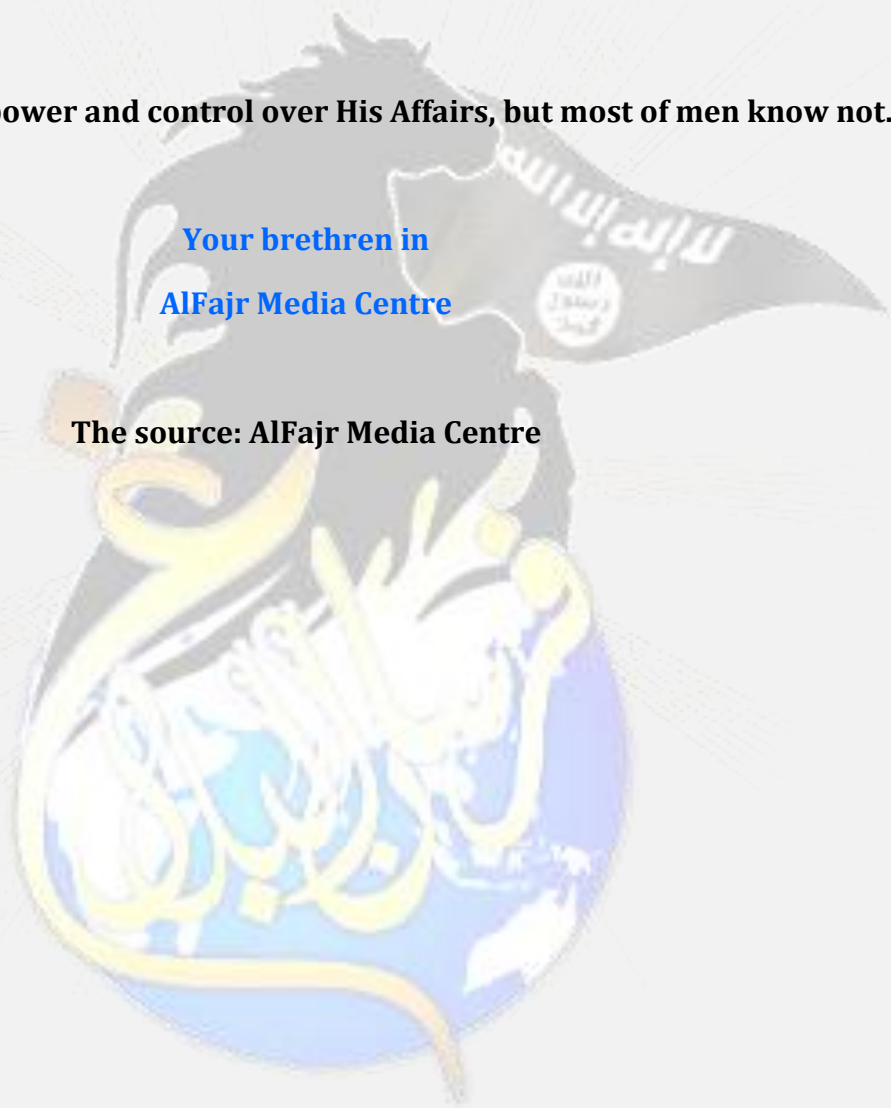

in the end

Jihadi media is stronger today than it was yesterday and more solid tomorrow than it is today, and the march is going on with martyrdom and imprisonment, and it's still going on, and its food is: for the soldiers and knights to stick to what the scholars and leaders of Mujahideen have ordered, as it was before led by single individual efforts till was gathered on their hands, it's still going and will go according to their command till Allah allows one of the two good outcomes.

And Allah has full power and control over His Affairs, but most of men know not.
